I would recommend Suzuki Style learning for any instrument I learned to play my violin this way to

start as well. It builds confidence to be able to play real music right away. Instant gratification. :) But of course any instrument requires practice and a desire to learn. I would recommend Suzuki Style learning for any instrument. It helps with expression and to not be so afraid of reading those notes and hearing only your own instrument. Jamming with the CD helps with the rhythm and makes you want to practice longer.

I am getting two pieces from book 1 recital ready while awaiting delivery of my soprano book 2 and alto book 1. I thank the recorder school for helping me rediscover, as an adult, the love of music, and Suzuki method in particular, I had as a child learning violin and piano

It is a good beginner book but I need a different approach. I did get a few good tips from it.

I am a student of the person who authored this method book in consultation with Suzuki, famous for his success teaching other instruments. With her help and this method, I am actually learning.
