Property: Cases And Materials (University Casebook)

Synopsis

A big-picture look at the history and principles influencing the Anglo-American institution of the law of land, this casebook provides the core materials for a property course. The format allows for a variety of teaching methods and applies easily to courses ranging from three to six hours. The ninth edition retains the organization and basic content of prior editions; however, it includes more introductory text to give students the necessary background before examining the difficult problems encountered in the law of property. Many sections have been reorganized to facilitate more efficient coverage of the material.

Book Information

Series: University Casebook

Hardcover: 1361 pages

Publisher: Foundation Press; 9th edition (November 29, 2007)

Best Sellers Rank: #21,924 in Books (See Top 100 in Books) #3 in Books > Law > Business > Property #202 in Books > Textbooks > Law

Customer Reviews

I hate this book. It's poorly organized and the writing is worse. Can I complain about the font? I hate the font. Go ahead and be the one book that uses a different font and heading format than all the other thousand casebooks. Extra star because it gets the information across eventually.

Good text for school

Perfect book For property law.

Excellent

The comments for this purchase was not quite accurate. There was more writing and highlighting

than was declared but for the price but for the price it was ok. The remarks should have read something like this alot of highlighting on important points but legible. Cover and pages intact. I would reccomend this book to a financial struggling student.

The book I received has wayyyy more writing and highlighting than what was expected. It can be distracting especially when you're trying to digest something like Property. But for the price, I can make it work. I just wanted to put this info out there for others to consider...

i liked the speed with which it was delivered.

Price was fairly reasonable compared to a brand new book, and the book itself is in pretty good shape. Although it has writing and hilighting, the writing is legible and the previous owner did not go hilighter crazy and hilight everything. I have a hard time reading the textbook when people do that, so I was pleased that this book was not like that. It arrived very timely also.
