Customer Reviews

David Loyd joined the Angelo State University Physics Department in 1969 and also served as Dean of the College of Sciences from 1996 to 2006. He received his bachelor's and master's degrees from the University of Texas at Austin, and his PhD from the University of Wisconsin at Madison.

Book has a worn appearance and pages had old food crumbs still stuck on it which was utterly gross. I am looking forward to the day I turn this rental in! Clean this lab book up next time!!

Received the book as pictured

The book is great, however the one I received not so great. You're not guaranteed a complete book

if you rent it apparently. So far about half of the labs that I've been assigned have been completely ripped out, leaving me to find another resource. Make sure the book is complete?

It came in perfect condition!

Great use for college students!

I returned it didn't need it for class
