I know [that] if I was a young, or even an older recreational goalie, this beautiful guide book is something I would insist on having. If I was a parent of a young goalie I would want him or her to learn from Allaire. In fact, I think this book should be provided to youth coaches right across the country and available in libraries everywhere. I do know that I will have to buy another copy for my collection. I showed this book to a senior men's league goalie friend of mine so that I could better gauge the book's impact. I think the fact that he refuses to give it back speaks volumes! After all, Francis Allure is the best in the business. If you want to improve your own goaltending technique,

then you should be ordering up this book A.S.A.P. (Joe Pelletier Hockey Book Reviews 2009-10-22)

François Allaire trained many goalkeepers over his 12 seasons working with the Montreal Canadiens. Since 1996 he has been a consultant for the Anaheim Ducks.

If you are new to goaltender coaching you should find this book helpful. It has a full practice and training methodology and plan. It also is full color and has helpful photos and illustrations. Allaire is a man with a great reputation and I think this book can serve coaches well. You will need other supplementation, especially if you coach above the peewee level, so 4 stars because contrary to the title, this is not "complete".

This book is very detailed. Very accurate, and can teach you to how be a goalie, even if you've never seen ice before. (If you practice hard) Contains many moves and stance drills. Made to specially target the specific move. Contains much info on off-ice training. I like this book very much.

A great resource for goaltenders who are new or experienced and interested in learning and improving their game. Well written and clear.

This book was useful to me as a new goalie. I had played hockey for years, but decided to try being a goalie and found that this book useful for learning goalie positioning inside the net area as well as for goalie stances/techniques.

Our two sons just love this book. They have read and read it many times. They play in over 50 hockey leagues so they keep sharp when they play. Thanks, nanacooks@frontiernet.net

Grandson will love it

Very helpful
