Beautiful art and near-standard dystopian worldview takes sharp and unexpected turns, mirrored by the art, to plunge us into a great storyline so good I can’t wait to get my hands on the next installments. If this is the level of indie comics, I’d give up the big Two anyday. Well-plotted characters who face real consequences for well-reasoned actions with no Deus Ex Machina (so far) riding in to save anyone: what’s not to love in this story?

I picked up the latest Low issue on Free Comic Book day and I knew I had to keep up with this series. This volume was amazing. I relate with this author so much it’s scary. Definitely a must have in anyone’s collection.

A dark, but well-illustrated story. Good if you like far-future what-if tales, which are my favorite. I have always been a fan of comic books and graphic novels. This series is well worth it. I can't wait for Volume 7 !!!

I love exploring new, innovative angles on the comic book medium. Image is very good at this, producing stuff that goes way beyond the US traditional superhero picture books. *LOW* is an amazing work of literary science fiction told with equally amazing and stylish art. A mix of pirates, drama, action, and far-flung future, with an awful lot of tragic storytelling. My highest recommendation for those seeking something new and unique in the universe of fantastic art.

It took a while to get into this series but half way through volume 1 I was in. There are some issues with speech bubbles and sometimes the action isn't clear, and early on I wasn't emotionally invested in the characters. But as the story carried on I fell in love with the world, and began caring for the Cain family. The artwork is gorgeous. I can't wait to read volume 2.

I can not put this book down!! LOVE IT. The Storyline is Incredible and I cant wait to move to Volume 2

*Low* is an apocalypse story where people have to evacuate land and inhabit an alternate habitat. We have all seen this story many times played out with an evacuation into space. However, this story is unique because it utilizes an underwater environment instead. Gregg Tocchini is an artistic prodigy and one ought to recognize they are spoiled, merely, by possessing the opportunity to purchase prints of Gregg's artwork in this collected form.

This story grips you and rips your heart over and over again. This is exactly how this world could be near the end, and it's drawn beautifully.
