Customer Reviews

In my never ending campaign for a healthy diet, I'm always looking for ways to add variety. This little

book, has a number of terrific recipes. Simple and tasty, many are gluten free and vegetarian, low in fat and sugar...and did I say tasty? A great introduction to preparing Greek food that ought to be part of anyone's diet who's interested in good health and good eats! I got it for 99 cents, too, so what a deal!

great read

I have to agree with others on a few things. Although the price was reasonable, you get with you paid for. Also some of the unit of measure are in kg., which is frustrating. The recipes that are in there do seem easy and delicious, but I will search for an more in depth greek cookbook

Very small cookbook for a big price.

Enjoyed by all

Love Greek food!

I should've paid more attention how few pages in the book. That was my bad but of the limited entrees there is s mishmash of alternating between American and metric measurements. Someone should've caught that during editing.

For the price this book should have contained much more. I am of Russian/Greek heritage and was very disappointed with the lack of content.
