Johnny McCabe (The McCabes Book 6)

Synopsis

As they sit by a fire on a Christmas night, Johnny tells the family of his early days on the frontier. Of how he and his brothers became wanted by the law, how he met Lura, and how he became the man he is now.

Customer Reviews

Book 6 is as good as the other 5 books in the series. If the reader started with book 1 of the series or just picked this one up they would be able to put all the characters in their respective places with the life of John McCabe. However, I started with book 1 and have read each in the order in which Dennison wrote them and I felt that I got more out of the stories. The best part of book 6 is the fact that John McCabe shares with his adult daughter, Bree, his past and as such the reader is able to put 2 and 2 together to get 4. This is a very good series that has more of the character and plot development than a typical shootem up bang--bang western. Dennison does have a strong moral compass for his characters in his westerns. If you like westerns--this is a good series. Entertaining as well as a good read.

My house is dusty. My laundry is piled high, but I read this series from cover to cover!! You won't be able to put them down. Mr. Dennison is a wonderful story teller . Now I see there is a seventh book in this series, so i guess the house work will have to wait. This series is a keeper, I plan to read them again! What a wonderful family. .

Let me first answer some questions. First, I gave five stars because the book deserved five stars. Second, What I liked about the book was every word between the first and last words. Third, this book really should not be read until the first five are read. Oh, you would enjoy it, but it is so much more interesting when you can see how this story connects with previous ones. Brad Dennison, it was ingenious how you wrote the first five volumes, then answered all our questions with a super sixth volume. And I can't wait for the next one which will continue filling in the details from the first stories.

Don't know what to say each of these books in this series can stand alone as a great book. I have read all 7 and can say these are the finest western books written. The people are so every day kind and loving and are true to the ranching and rural way of life, where we all used to help our neighbors and have respect for others. I hope every one who reads this will read at least one of these books. I draw my opinions from raising my children on a small cattle ranch south of Burns Oregon.

Well written book about the three McCabe brothers; Johnny, Joe and Matt as told by Johnny. It is a long story of their lives while running from the law for something they didn't do. As they ran they helped others along the way until they were cleared.

Johnny McCabe was a good read , I enjoyed the story. Especially with the setting talking place in the snow. Johnny McCabe Book 6 gave you a good sense of who the players are, and how their personalities developed. Set aside plenty of time and have your snacks a hand. It's definitely a page turner. I would recommend this book to all western buffs and those that are picking up a western for the first time. After reading Johnny McCabe Book 6, you will be hooked. I look forward to reading book 7.

This story has lots of family humor, and humor. The author has a delightful sense of humor. There were several places where the brothers were frustrated and had difficulty had to hope for the best

future. I have already purchased the next book in this series.

The author has an interesting style and a clever device to recount the events preceding Book 1. I am anxious to start the next book, but also sad as it is the last in this series.
