Lawless: Loving Jack

Synopsis

In this heart-warming romance from New York Times bestselling author Nora Roberts, can frontiersman Jake Redman capture the heart of a woman unaccustomed to the wild landscape he loves? Half Apache and all man, Jake Redman was more than a match for the wild Arizona Territory. Sarah Conway, on the other hand, was an Eastern lady who belonged anywhere else but on the rugged land Jake loved. But beneath Sarah's ladylike demeanor beat the heart of a true pioneer, a woman he yearned to make his own.

LAWLESS was absolutely wonderful and one of the best books I've read in quite some time. While it had its sad, sweet, and tender moments, what really won me over were the characters... they were simply the best! Although Sarah and Jake seem like total opposites, they were utterly perfect for each other. Sarah was just too funny and had me laughing out loud, then there was Jake who was always taking care of her but thinking she deserved better than him. I loved Sarah's grit and determination to make something for them, and her refusal to let Jake walk away. These were two of the kindest and most good-hearted people you'll ever meet, and whom I thought were fantastic through and through. Actually, the entire cast was great and you'll either love or hate them, which is as it should be. I'd very highly recommend this book not only to all historical romance lovers like myself, but to any Nora Roberts fan. It's simply a smart, charming, and exceptionally entertaining love story not to be missed =)

So, Sarah went west to be with her father, whom she hadn't seen in several years. After being rescued by Jake when Indians attacked the stage coach, Jake has to tell her that her father is dead. When a well to do rancher starts to pay court to Sarah, Jake has had enough and sets out to claim what is his. Great read.

A very prolific author, Ms Roberts has written many stories over many decades. When she is at her best, she is a master. In this story, her talent shines. Her characters are wonderful, the storyline is exciting, the craftsmanship is spot on. Her writing style is smooth and clever. Enjoy

This was my first historical romance by Nora Roberts and I loved it. Set in 1875 in Arizona Territory, it tells of Sarah Conway, who was raised in a convent school in Philadelphia where her father left her when he went west to discover gold. He loved his daughter and saw Sarah had everything but the one thing she really wanted--her father. So, when she was nearly 18, she traveled west to Lone Bluff where her father had settled and built them a fine home. She is shocked to see how stark the land was and to discover her father has been killed in an accident in his mine and there was no fine home. Instead, she finds a one-room shack with a dirt floor. Jake Redman is half Apache and all gunslinger, a hardened man but with a kind, noble heart. Jake thinks the girl he calls Duchess won't last a day in Lone Bluff. But he was wrong. And for some reason, he wants to protect her. Sarah is a stubborn, determined woman with little respect for the prejudice of others. She falls hard for Jake and befriends a young prostitute--all the while she is making a home of the cabin her father left her and building a seamstress business. Jake is the perfect hero, steel and ice outside and fire inside. Sarah has a steel backbone but is all lady inside. Roberts brings the Old West to life creating vivid images of the rough life on the frontier with lots of action to keep you biting your nails. There are wonderful secondary characters, too, including Lucius, the kind old soldier who Sarah hires to look after her place; Alice, the young prostitute who thought the sun rose with Sarah; Sam Carlson, the smooth rancher who was more snake than gentleman; and Carlotta, the madam of the local whorehouse who wants gold and Jake and doesn't take kindly to the proper young lady from Philadelphia who has captured Jake's attention. Great storytelling! I recommend this one!

A wonderful historical fiction love story. I love Sarah. I would have been just like her. Soft and caring but yet fiesty and protective like a mama grizzly bear. I loved the way she described the characters. This would make a great movie. I think this book ranks right up there with Montana Sky. I loved that book as well. That was made into a tv movie. I liked that movie. It amazes me how many books she

has written. Keep on writing.

I love stories set in the 19th century. This one is the first I've read by Nora Roberts and it's just as good as some I've read by other authors. I love anything that Nora writes in any case, and this was not a disappointment. She can put a couple together in a way that really keeps me glued to the book and wishing there was more at the end of the story.

Its nice to know that Nora Roberts can go from 200 years ago to the future with J.D. Robb In Death series! I love it and am never disappointed! Never boring and always entertaining!

A great western story about an innocent Eastern lady who meets and tames, the loner gunslinger, cowboy, Jake. Complications of greed and jealousy creates a fast and exciting read.
