Farming In Nature's Image: An Ecological Approach To Agriculture

Synopsis

Featuring 300 full-colour photographs, this atlas provides an expert guide to visual diagnosis and management in paediatric medical and surgical emergencies. It's an indispensable visual reference in the emergency department, or in the paediatric clinic where rapid diagnosis depends on accurate physical observations. Each chapter begins with a brief overview that offers a general discussion of the issues relevant to a particular type of emergency - including signs and symptoms and algorithms to aid differential diagnosis. Heavily illustrated descriptions of specific emergencies follow, comprising the bulk of each chapter. Features - Full-colour images throughout - Presents both medical and surgical emergencies in a visual format - Logically organised by body system or region - Standardised chapter template makes information retrieval eas
