Annihilate was a book I truly savored until the end, a perfect way to end the Hive Trilogy. Charlie has grown stronger and much more self assured, and Ryder has finally come to grips he can't stop her from being a direct force in the battle for humanity. I felt the finale plot line was very interesting and thought out well, no holes that I could find. I really appreciate how Stone and Eve build relationships between the characters that is full of emotion and real trust. I especially appreciate the continued as well as budding romances as well as the diversity of the match ups ;-) These two authors play well together, don't pass up a chance to share in the amazing world they have created!

Oh my gosh!!!! Jaymin and Leia have finished this trilogy beautifully! They have even left it open enough that they could continue on in this world, but the ends are tied up so they don't have to (hope they do though!!). Charlie and the sexy 6 are tighter than ever after the group has no more secrets and they have a mission to complete, ridding the world of vampires! There is action and romance and so much humor! Everyone needs a Jayden in their life. I recommend this book to those 16 and up. Some language and sexy scenes. Great finish and I can't wait to read more from these 2 fantastic authors!

sigh I don't think that there is a book out there that Jaymin Eve writes that I don't absolutely love. Team it with Leia Stone and that makes this book oh so much better! This is a great ending to a trilogy. Charlie is great. She doesn't let anyone push her and Becca is a great addition to the group. Can I just say that I need a BAFF? Wanna know what BAFF stands for? Buy all three. You won't regret it.

These ladies pairing up to write this series was one of the best things that ever happened. They are two of my favorites individually and together they may as well be a unicorn themselves! Seriously though, this has been a great series with a kickass heroine who's been learning to find her true self, becoming someone who is courageous, loyal to a fault, a bit on the crazy side, super mouthy, and someone who loves fiercely. I've loved reading how she grows, her learning to truly embrace all that she is, how she kicks vampire ass, and even finds love while she's at it. If you love a storyline with a girl who can do the saving herself, has the attitude to back it up, and finds love with a man who accepts her for who she is then this series is for you.

Not my favorite books but definitely not horrible. I never fully connected with the characters, including Charlie. I just felt like they were portrayed one way but then acted another. I also felt like this last book was a bit rushed storytelling wise, like they were trying to put everything into this last book to tie it up and be done. This book didn't hold my attention as well as the other two and along with the rush feeling is why I only gave it three stars. Still looking forward to reading more from these authors, though.

I love Jayden he is so funny. The ranking of my favorite characters goes as follows Charlie, Ryder, Jayden, Sam, Jared, and then everyone else. I totally want this book series to become a movie I

could totally see it happen and I would totally go see it in theaters. Jaymin Eve and Leia Stone did an awesome job in this series. Even though I am a guy and the books were probably made for females because of the main character and the romance I didn't care I still liked it.

I loved it. And I am very sorry that the end is here, with this book. Love the characters, and the chemistry between them all. I have always enjoyed being so immersed in a story that I couldn't put down, and was a story that I felt I was right there with them. Looking forward to more books from this collaboration of authors. Great series and job well done Jaymin & Leia!!!

I really enjoyed this "Hive Trilogy" series! It really kept my interest. I loved the characters immensely, they were so loyal and strong. I would welcome any of the "sexy six" into my life at any time! Great world building, characters were so real to me. Anytime I cry when reading a book, makes it a winner for me! Thanks so much for the wonderful stories!
