Customer Reviews

Women may be put off by the concept of dressing primarily for their mates, but the authors make this book palatable by using a low-key approach and offering entertaining anecdotes about beautician Roppatte's celebrity patrons. "Fun for browsing and stargazing," PW commented.

Mr. Roppatte wrote this book of fashion in the 1980's. I only wish he would update it and make it more contemporary. The title complements its real intention. This is a superb compilation of the fashion 'types' of women (which could also apply to men!). For instance, if you are a "Girl Next Door type", you will get an indepth, accurate description of your likes and interests and how you tend to dress for your personality category, and ultimately, the man you will attract or be attracted to. There are about five more personality type-descriptions mentioned in the book, but you have to read it to find out. It will be worth the purchase!!! You more than likely fit into one of them. The book is entertaining, fun to read, and amazingly true!

I bought this book in the *80's" and needed a new copy. Really helps define a personal style. Timeless. Highly recommend!

Arrived in good time. This is now an older book, yet the information is still relative to fashions and lifestyles today 2009. Thank you.
