Ethics In Practice: An Anthology

Synopsis

The fourth edition of *Ethics in Practice* offers an impressive collection of 70 new, revised, and classic essays covering 13 key ethical issues. Essays integrate ethical theory and the discussion of practical moral problems into a text that is ideal for introductory and applied ethics courses. A fully updated and revised edition of this authoritative anthology of classic and contemporary essays covering a wide range of ethical and moral issues. Integrates ethical theory with discussions of practical moral problems, and includes three essays on theory written specifically for this volume. Nearly half of the essays are written or revised exclusively for this anthology, which now also features eleven essays new to this edition, as well as expanded sections discussing theory, reproductive technologies, war and terrorism, and animals. Content allows teachers to discuss discrete practical issues (e.g., euthanasia), focus on the broader grouping of topics (e.g., life and death), or focus on common themes which bridge sections (sexism, moral standing, individualism and community). Section introductions not only outline the basic issues discussed in the essays, but relate them to theoretical perspectives and practical issues discussed elsewhere in the book. Guides students with supporting introductory essays on reading philosophy, theorizing about ethics, writing a philosophy paper, and a supporting web site at www.hughlafollette.com/eip4/

“A superb and thoughtfully edited collection of ethical writing, both theoretical and applied, containing timeless classics (many revised) and timely contemporary essays on important practical topics.”
—David Archard, Queen's University Belfast
—Hugh LaFollette, a

leading ethicist who is known (and valued) in particular for his contributions to practical ethics, has done a superb job selecting papers for this important anthology. — Christopher Heath Wellman, Washington University in St. Louis

The fourth edition of the highly successful *Ethics in Practice* offers an impressive collection of 70 new, revised, and classic essays covering 13 key ethical issues. Through the careful selection of essays, thoughtful organization of the sections, and helpful introductions, this book brings together a collection that integrates ethical theory with the discussion of practical ethical issues. In addition to covering many standard issues such as abortion, euthanasia, animal rights, the environment, and world hunger, the volume includes essays which discuss less familiar, but equally important topics such as hate speech, drug-use, gun control, and political correctness. Half of the essays have been written or revised for this anthology. Eleven essays are new to this edition, and the sections on theory, reproductive technologies, war and terrorism, and animals have all been expanded. The essays are philosophically rigorous yet engaging and accessible to the introductory student, enabling students to think critically about a wide range of moral issues. The supporting website (www.hughlafollette.com/eip4/) contains extensive links to sources on the topics, ethical theories, and guides on writing philosophical papers. — Together, these features make *Ethics in Practice* the ideal volume for introductory and applied ethics courses.

Useful, practical anthology text of basic readings in ethics and political science. My major criticism of the book is that there is no indication of the original publishing dates and countries of the material, and the book mixes and matches classic readings from the past centuries with modern pieces. This could be extremely confusing for foreign students or anyone new to political theory. You will be pulling out your smartphone and asking Google for context, which you really shouldn't have to do with a didactic text.

Works well

Just what I needed for my class at a more affordable price than offered elsewhere.

Awesome textbook

Book is in good condition

I needed this for a class, it can be a little dry at times, but it has a lot of good information in it. I am learning a lot from it.

Cheap and good.

It's very good for the price
