Customer Reviews

It's ok but not clear enough for beginners. For example when it describes "live" it says to move your fist up - singular. It would be much clearer and correct to say to "move both fists up at the same time".

It was ok

Good sign book

Vague

Simple but thorough

The illustrations are too small.

This is a good starter or refresher book for those learning American Sign Language.

What a shame. Illustrations are tiny and distorted. Almost impossible to understand what some of them are trying to tell you. This book should have been reviewed by a non-signer before it was released.
