Customer Reviews

For someone like me who does not have the budget to go to the gym, I go to books for advice on bodybuilding and exercise programs. This book has the tips I needed. The illustrations of the exercise positions are very helpful as instructional material during the training program. I can see the effort of the author in showing the muscle groups that have to be trained through the concise descriptions as well as the pictures included.

I gifted this book to my husband. Following this book , he used to do exercise for the last one year. He says that he has got benefited through this book. We all want fit body, strength and proper muscle. I think this book can help you to gain that. This book has some exercise tips. It has provided tips with pictures. If you follow it , you may gain the perfect shape of your body muscle.

There are dozens of exercises I can do to build muscle but I don't want to spend a day trying them all. I can't afford the luxury to work out for hours each day and am sure not all exercises are created equal. Some are simply more efficient than others and this is what I expect from this book. IÃ¢Â¢Â¢m not interested in looking like a bodybuilder, IÃ¢Â¢Â¢m trying to get more of a lean fitness model body. So far I think I may have found what I've been looking for.

This book is perfect for those who are into building strength and gaining muscle. It teaches a lot of different bodyweight exercises that would be very helpful especially for athletes and even for beginners. It also provides instructions and illustrations for proper execution of the exercise. In terms of bodyweights, it is important to know every single exercise properly in order to achieve the desired form. It's nice to gain ideas about these exercises through this book.

I am a runner and this time I want to spend a little time on gym to built muscles on chest and arms. I really like the book as it met my expectation and there it goes, the programs for each part you want to improved are clear stated and full of details. This is such a helpful and easy to understand book, perfect for my program.

This is comprehensively and concisely written book on strengthening and gaining muscle. Readers can expect to pick up tips and safety measures while doing the exercise. The author provides relative knowledge on every parts of the body that will be the focus on the workout. This book is certainly worth a read.

Its a Great Guide .I brought it for my brother as well as for my husband. Very good response from them. Its quite easy and effective exercises . This book teaches you the 44 best body weight exercises for building strength and gaining muscles . They told me that most of the exercises are timeless . These are the special exercise that done by athletes for decade . This book is designed for beginners who want to do body weight exercises in the proper form .

It's the best book on exercising I've ever read. The instructions are very clear and detailed. There are also decent illustrations. All groups of muscles are covered. This guide gave me the opportunity to exercise at home. If you're interested in the matter, this book is for you.
