Customer Reviews

I love Dover's CD ROM & Book series. In fact, I would classify myself as a junkie. I have every Egyptian-related release that Dover has ever published, and while the illustrations in the book are very striking and crisp, if you look at the TIF's on the enclosed CD ROM, they are extremely amateurish and sloppy. If you are thinking about using them for any sort of web or book project, then without a doubt you will be spending a great deal of time doing cleanup and colour re-adjustment in Photoshop, Paintshop Pro or another graphics editor. The colours of items, glyphs and fleshtones are not at all consistent to Ancient Egyptian artistic canon and grammar. Also, there is an almost excessive use of the colour orange within the geometric patterns as well. One gets the feeling you have seen the same pattern over and over again with very few variations on a theme.

just what I needed

I love these kind of things. I use them to fill in backgrounds for collage and they certainly do the trick. What more can I say? Dover, please publish more of these.

The detail or lack of, in this book leaves much to be desired. I wish I had not purchased it. I would return it but with the shipping, it is not worth it. I purchased it to use some of the patterns as background for wood burning or maybe find a scarab or other interesting design I could use in my purse or jewelry design. There is nothing in the whole book that I can draw inspiration from. Unbelievable.

This book is filled beautiful full color images . I really appreciated having so many varied images to draw from in a single book.
