## Customer Reviews

Don't know how to describe the plot of a philosophical text. I suppose it was engaging?

Remarkably powerful. I would put it's power up there with the Bible. Simply amazing.

This book has practically become my personal bible. I read it daily and it inspires me and helps me to stay level headed. I have bought it for several of my friends and I highly recommend it. I could go on and on about how great it is, but it has a little something for everyone I think. He was a very intelligent man. Hopefully this book will help you on your journey to discover the ubermensch.

Its not so much as the fact that its hard to understand because its philosophy, but because its hard to understand because the symbolism of each section. Even the introduction said: But most readers will wonder, what is he really trying to say? if Nietzsche wrote like he does usually in a direct way rather than using his aphorisms , we could understand the main point and evaluate it. Don't get me wrong, I like Nietzsche, but due to symbolist stories , its hard to pin point what he's really trying to say.
