Travel Ireland 2012 - Illustrated Guide & Maps. Includes: Dublin, Belfast, Cork, Galway, Kilkenny, Derry, Letterkenny And More (Mobi Travel)

Synopsis

This guide is designed for optimal navigation on eReaders, smartphones, and other mobile electronic devices. It is indexed alphabetically and by category, making it easier to access individual articles. Articles feature information about attractions, landmarks, districts, transportation, cultural venues, dining, history and much more. Addresses, telephones, hours of operation and admissions information are included. The guide is complimented by clearly marked maps that are linked to city attractions. This travel guide also features a Dublin itinerary with our suggestions for your travel route. Itineraries include links to individual attraction articles. NEW FEATURE: The attraction articles now include links to Google Maps. On a dedicated electronic reader with a slow connection and a primitive browser, Google Maps will display the attraction on the map along with metro stations, roads, and nearby attractions. On an internet-enabled device such as the iPhone and the iPad, Google Maps will even show you the route from your current location to the attraction you want to go to. With this travel guide you can turn some eReaders into audio guides. For example, on the Kindle, just open an article and click Shift+SYM to activate text-to-speech. Put the speaker on the back of the Kindle against your ear and enjoy your virtual travel companion. Press Spacebar to pause/resume text-to-speech. All travel guides in the Mobi Travel series are only \$4.99 or less.

Customer Reviews

I cannot believe this book was conceived as anything but a way to rip off clueless buyers...like me, I guess. Suppose you are thinking of traveling to, say, County Mayo. You might expect to see a chapter listed in the Contents...nope. You might expect an entry for Mayo in the Index. Nope. There is an entry under C, for County...well, that's stupid, but ok. There you might look for information like which towns are most interesting (no luck), whether there are mountains or scenic seacoast (no luck), you know, stuff a traveler would care about. You will, however, learn, that there is limestone beneath the soil of southern Mayo. Well, that's certainly something to plan one's trip around.

I thought I would save myself by getting Kindle editions of travel books to use in Ireland so I wouldn't have so much to carry. However, one needs maps and photos in a travel guide. Kindle versions do not have these, which is Kindle's greatest downfall. I would NEVER buy another Kindle travel book.
