Customer Reviews

These are decent, but I found multiple errors in these. I would recommend you just use it as a supplement. The AICPA released questions are great though.

Excellent books. Really help with acing the CPA exam. Would definitely recommend them to anyone looking to take the exam.

Excellent review guideline; however the books do contain their fair share of editing errors. Not a huge issue though, as the overall content and approach is sound. I would recommend to anyone looking to avoid spending a fortune on review courses.
