Customer Reviews

It's great to have stories from the Quran to read to my daughter. The story is well written and is a good summary. However, Wish the word chosen were a little more children friendly. I sometimes feel like my 4 year old has a hard time following the story and becomes uninterested. Also, the illustrations are beautiful, but I think they could catch children's interest a little more if they were more related to the story on the page.

what better of a book to read to your child before bed. It helps me sleep better as a parent knowing

my child didn't fall asleep to youtube videos but instead sat up in her bed to ask my questions after. Its important to value our children during youth since it doesn't last forever, so we must make good use of it before it is gone. We have to ensure that we follow the footsteps of the great Muslim youth of the past who were luminaries of humanity. Let us remember the words of the Prophet ﷺ who said, "Value five things before five other things: Youth before old age; health before sickness; affluence before poverty; leisure before becoming too busy; and life before death." [Tirmidhi]

Islamically accurate (ordered and read for Islamic accuracy) prior to gifting to my nephews. You want to provide your children with good books at a young age to ensure a strong moral base. However, with any religious related material, it is important to ensure that all of the information is accurate. I can verify that there are no inaccuracies in this book.

Excellent for anyone Muslim who loves the Prophet pbuh and wants to pass on the legacy of the greatest man to have ever walked the earth!

Perfect starter book for young kids.

Good book

This is a good quality book and nice for reading to your children as it is simply written and easy to understand. There are some inconsistencies in the format. Some stories have a moral and others don't, otherwise very nice.
