The Legacy Of Islamic Antisemitism: From Sacred Texts To Solemn History

Synopsis

This comprehensive meticulously documented collection of scholarly articles presents indisputable evidence that a readily discernible and uniquely Islamic antisemitism has been expressed continuously since the advent of Islam. The contributors show that the "Koran" itself is a significant source of hostility towards Jews as well as other foundational texts.

Customer Reviews

Unrefutable truth, the nature of Islam is anti-Semitic, since we all know that it should be read it, it keep you in constant surprise how cruel was Muhammad and his descendants. Is a source of facts to all of those who still believe that Islam is the religion of piece and we should have more migrants coming from Muslims countries.

This is a monumental accomplishment and a must-have reference for people who want to be informed of the true nature of the "religion or peace" over the centuries since it first swept out of Arabia.

Bostom is easily the best writer on matters Islamic, certainly the most thorough

An extremely detailed and all inclusive book. Read it slowly, its not a fast read but tells a compelling history of Islam's war against the Jews.

Fascinating read, gives context to some of the recent trouble worldwide..

Finally we get a no holds barred look see at the History of Islam. No deal can ever be realized between Islam and the Jews or Christians for that matter. Read and become informed!!

Andrew Bostom has performed an invaluable service in editing this volume. All one hears are opinions and projections of personal beliefs onto the religion of Islam. (Our President's view is one such example.) Using the words and expositions of Islamic leaders and scholars, rather than our own revisionism, Dr. Bostom shows clearly that there is a very long history of anti-Jewish bias and prejudice in Islamic thought. The concept that all this "anti-Zionism" is a phenomenon of the 20th century is put to rest in a clear, cool and scholarly fashion. His opening esssay - with ca. 1,000 footnotes - should be required reading in every house of worship and university in the Western world. Sadly, this will not happen but readers can purchase the book and see the facts for themselves.

whilst scholarly, it is a compelling read. Islam is not what the media say it is. Read the texts for yourself and grow in understanding.
