This is an informative book, and required reading for an undergraduate Art Teacher Training course. Decent book, well put together, Thumbs Up!

This is very informative and a must read for any art educator who do class critiques. There are transcribed critics of successful and unsuccessful critiques; starting with elementary and ending with high school. Each has comments throughout the transcription describing what was done correctly or how the critique could have been improved. It's a thin book, so it can be read within a day.
