Customer Reviews

This book taught me antitrust through and through in about four days. I highly recommend, particularly if you haven't kept up with the reading like you should have. I didn't just pass, I crushed the exam thanks to this book.

Helped solidify a lot of concepts before the final.

Some materials in here differ from what my professors told me..... The discrepancies were kind of annoying to deal with, but then again, this is the vaguest, the most standardization-free subject in the world. Otherwise, well organized and informative outline...
