## Customer Reviews

OK to learn some common words but would not be helpful for someone traveling to Germany that could not speak a little German or was just planning to frequent areas and businesses that had English speaking people available. I had already learned some of the words within from my father having been stationed two years in Germany while in the military.

just dont take a language book to a country, youll be a target.

Fun guide with illustrations and pronunciations.

Like the concept but wish they had more tourist friendly words or questions not random words, many of which wouldn't apply if traveling there. But only \$10, why not...kill time on flight over!

I love learning this way. The only thing that would make it better was if the German spelling was accompanied with the pronunciation.

These SLanguage books are great for kids and adults. This is the second series I bought. The first were the Spanish SLanguage. I was so pleased, I ordered the German ones.

good

A fun way to learn.
