We are planing a vacation to Washington DC later this year and I got these activity books for the kids. They really love it and can't wait to do the puzzles!

The line drawings could be greatly improved upon! Very scary and stark looking. Besides that, the book has some interesting information and facts. My grandsons (14 and 10) enjoyed reading it on our car trip to DC.

Great book. In my opinion kids around 7 or older will get more out of it than younger kids. Great for adults too.

This book was not what we expected. It was not well received by our 7 year old reader. It is for older kids.
