Fun first reading books

Another great Step into Reading book! My boys love Thomas so we are collecting all the ones we don't have yet. This will aid with reading, phonics and sight word skills and your child won't even know they are learning! My son memorizes the words and he's only 3. These are great quality and will last thru passing them down from child to child..

Wonderful present for our grandson: he enjoyed it very much. I intend to buy more of these books. I wish they weren't so expensive (I mean the price PLUS the shipping - amounts to a fortune!). Unfortunately not all readers live in the USA, and the shipping costs are getting too high. Consider that the book costs \$3.99 and the shipping \$10.98. See what I mean? The shipping costs the double of the book's price... Maybe you should try other shipping system? Always happy to BUY

from , and review too if that helps someone...Thank you

This book is an "easy reader" and contains a very watered down version of "Hero of the Rails," in which Thomas finds Hiro and attempts the large, old engine. In the original episode all of the other engines become involved and show their care and concern. In this book, Spencer is the only other engine mentioned, as the "bad guy." There is no real story line to the book, and you need to know the original story to make sense of the book.

Love me some Thomas the Tank Engine books. My ggson is just over the moon about these books. They are cute and well written. I put them on my kindle fire for him. We read them when he spends the night.

My son 2yrs old loves Thomas!! He loves this book. He has almost memorized the story. I have had to order a new one due to daily repeated use!!! I love these books as do my children!! It's like a five minute story! Perfect for little ones to keep their attention!!!

The book content is great and our son really enjoys it. However, we've now had two Thomas & Friends books in this Step Into Reading series fall apart within a couple of weeks. That's with us holding the books and no toddler-based abuse. The binding just fails and pages start falling out.

I bought this book, along with several others, to encourage my grandson to practice reading. Nice for Christmas.
