This book is awesome. It gives you two versions of each song: one simple and one fancier, plus a bass part and chords. The tunes are easy so it's great for playing with friends, even if they don't know the song ahead of time. It's not always easy to find fiddle tunes in bass clef!

This is a great addition to my cello pieces. As a former fiddle player, these pieces are familiar and the fingering transferred quickly to the cello. This was a Christmas gift.

This is one of the best solo fiddle books for cello and bass players. Finally the cello and bass players get to play the melody! It starts out very simple and then gets progressively more challenging with the later songs requiring some shifting and harder keys. There are three choices for each song, the tune, the break and the bass part. There is also a version with the solo key and chord symbols above the notes. These parts can be mixed and matched with the violin and viola

book. This book is very versatile and useful for solo playing, small ensemble or string orchestra. I use it as a supplement to teach 6/8 time, slurring, double stops, etc.
