Customer Reviews

I guess if you know nothing at all, this would be ok. It really does not have what it says it was.
Complete. Really.? NOT even close. A long wait for nothing. I waited 6 weeks. Just to return it. It
was not worth the wait. They did say they would return. Another long wait. Still waiting 7 weeks later
for my refund. Never did get my money back.

Book was useless, showed no techniques, no instructions on outlining, shading, coloring.....just
pictures, no how to.....total waste of money

This book disappointed me. I was expecting a book filled with actual helpful information. This book
reads as if a child wrote it. The information it gives is not even close to being an apprentice guide.

Perfect.

Great book for information. But go to a website n save money same information there.

Sending this book back. Looks like something I could have made in my garage. Very little info.
Terrible quality. Not worth the money.

Great tool to utilize YUP YUP

This book does have some good info in it , but it could also be a little more detailed. But all in all not
a bad purchase.
