Dermatopathology Of Tropical Diseases

Synopsis

The majority of tropical diseases manifest themselves through the skin, and while many can be diagnosed on physical examination, dermatopathologic results are often of critical importance to the diagnostic process. However, general dermatopathology texts lack images of diseases endemic in the developing world; they also lack clinical correlates linking the pathology to the clinical entity. This is a problem, because greater movement between countries where tropical diseases are prevalent and Europe, North America and other developed nations makes it essential for physicians to be able to recognize, diagnose and treat these diseases. *Dermatopathology of Tropical Diseases* covers the pathology and clinical correlations of the most important tropical diseases. Each entity is described using brief text that summarises its epidemiology, pathogenesis and clinical features. The diagnostic process is then described and illustrated using both clinical and histopathologic images. Wherever possible, different examples are shown of the same disease, in order to illustrate as wide a variety of presentations as possible. Extensively illustrated with almost 600 photographs, *Dermatopathology of Tropical Diseases* is an invaluable resource for dermatopathologists, pathologists and dermatologists based in the developing world as well as those in developed countries who see tropical diseases in returned travellers and immigrant populations. Key features * Includes chapters on all major tropical diseases, with both clinical and histopathological images provided for each entity, allowing the reader to correlate pathological characteristics with the clinical presentation of each disease * Wherever possible, different examples of the same disease are shown, to illustrate the variety of presentations * Lavishly illustrated with almost 600 colour photographs

Book Information

Hardcover: 310 pages

Publisher: Jp Medical Ltd; 1 edition (January 1, 2017)

Language: English

ISBN-10: 1909836060

ISBN-13: 978-1909836068

Product Dimensions: 8.6 x 0.9 x 10.9 inches

Shipping Weight: 3 pounds (View shipping rates and policies)
