The chapters are very long. Its an interesting book but the professor fails to utilize the book properly. Fast delivery just in time for my class. The book was in very good condition. Thanks

Love the book Robert Owens Junior does it again anyone who needs to know about language development needs to read this book right now like yesterday

Great text. I think all parents should read this, not just SLP/communication disorder students.

Perfect.

I really like the way this book is written. It's approachable and doesn't feel like a textbooks. It's tedious like some other language development books I've read for classes in the past. Everything is clearly laid out and comprehensible.

not well-organized, and a bit unclear. there are better books out there.

Came in perfect condition! Was very useful and informative in my course.

Needed this book for my Language Acquisition class and it was perfect. Textbook didn't take long to get sent to my house either.
