Customer Reviews

I bought this for my brother, who will read books when they are relevant. This is very thorough, and useful for him.

GREAT BOOK

Is as expected.

My son needed this for school. I came in a timely manner and he is still using it in HVAC 2.

Listed as not marked on the inside. Every single chapter is marked, including practice quizzes. Was the only reason I specifically bought this version. Very disappointed.

Best training book Ive come across great price shipped fast

perfect

great book and condition, hope to get more thanks !!!
