Customer Reviews

I love biography books, love seeing how people approach life. This girl is genetically (and surgically) blessed, and she used it to create a career...GOOD FOR HER, didn't let people hold her back and her fortune has allowed her to care for her family. She's been beaten down by ex's (haven't we all?) sad that 2 spineless men flat out publicly denounced her and her son (losers)but she's having the last laugh with her sucess and beauty. We should all be so lucky to have such guts and not worry what others think/say about us. Her husband needs to get on the ball with his career.

I'm American and not impressed. Sorry.

Loved her honesty. She certainly isn't afraid to tell it like it is, whether the reader likes it or not!

I love Katie Price! This book gave you a glimpse of her life. I am not a huge reality TV fan but I also love the Katie & Peter reality show. There is something so real and believable about them. Katie is such a strong likable woman not ashamed of her sexuality that I think she sets a good example for anyone looking for one. Besides, who doesn't love British accents?

This first part in Katie Prices' autobiography is a great read. I have three kids and still had plenty of time to read this book. I simply could not put it down. This book is absolutely fantastic! Can't wait to get the next book.

I picked up this book at a local bookstore as I was somewhat curious to all the hype and gossip surrounding the omnipresent Katie Price. She has flooded gossip columns, television shows and, now, literature book-lists as one of the highest grossing businesswomen of the millennium. I have never been extremely impressed with the media surrounding Ms Price, but thought that her autobiography might shed some light on what is behind all the harsh newspaper reports. What I found was quite an enjoyable read, for a few chapters anyway. The first half of the book was quite surprising in that she goes into detail about her adolescent life, her inspirations surrounding pursuing a career in (glamour) modelling, and the very personal story of her experiences with a paedophilic photographer during her pre-adolescent teenage years. This I applaud her for, as I expect it is not an easy feat to expose personal stories like these, and hopefully will inspire people in similar situations to tell their stories as well, or at least seek help from the proper authorities. This, however, is where my applauding halts, as most of the following chapters focus on her (very) publicised relationships. Plus, while this is expected, Katie goes into a rant of berating her ex-lovers' penis sizes, sexual performance and extremely shallow expectations of what a man's body should be like in order to acquire the authority to 'date' her. I felt particularly sorry for Gareth Gates, as whilst I don't doubt Katie's words are in essence the truth, she really doesn't put him in a good light towards the end. How she can attempt to justify cheating on someone because she is in need of more sexual stimulation, or because she is simply bored is beyond me as you can bet that if these were the words of a man speaking, his book would most definitely not have been nominated for 'Biography of the Year' at the 2005 British Books Awards. Despite all of these negative aspects to

Katie's first autobiography, I would still recommend that you pick up a copy if possible, and try to read with more of a psychological stance. It really is quite interesting to see how someone can justify their wrongdoings by using quite hypocritical methods of self-pity. This is not a book to find inspiration, and even after reading about her horrible adolescent experiences, this still doesn't balance out the shallow and self-advocating attitude she holds and expresses in vile language towards ex-lovers and men in general.

This was a book that kept you interested and coming back to it even tho not the best written or edited. A real shocker at times, but mostly due to her blantant honesty, which endears you to her story. I don't think many of the ego driven celebs in her catagory could've had the balls to write about their lives so honestly and open as Katie Price has done in this book. This truly is the "good and the bad" about this girl, and in her own words. Well worth reading and highly recommend!

This is a pretty sensational autobiography. Katie Price is Britain's most outrageous star, and as I'm from the U.S., I've only heard bits and pieces of her story from Perez Hilton, E! and other online publications. I was able to grab a copy of this from my college library and I was floored by her honesty: she gives details on everything: her early days modeling, all the men she's dated and the birth of her son. I had a difficult time putting this book down, it's a page turner. I suggest getting to know Katie, a.k.a. Jordan. She has her flaws, she's unlike anyone else but she has a story to tell. I can't wait to read her next books.
