Customer Reviews

Praise for The Notebook of Doom #1: Rise of the Balloon Goons: "Cranking up the hororlarity with googly eyed cartoon figures and sight gags on nearly every page, Cummings pitches his nervous but resourceful newcomer into a climactic, all-out battle with an entire army of aggressive, air-stealing bendy balloons... An unusually promising series opener for proto-Goosebumps fans." -- Kirkus Reviews

Praise for The Eensy Weensy Spider Freaks Out!: "Clever text full of witty asides." -- School Library Journal

Praise for More Bears!: "[Artwork that is] infused with zaniness of fun." --

Our son loves it and likes to read it over and over. It's a great series and we will continue to buy these until he grows out of them (which I'm not sure will happen at this point - it's been 2 years and counting LOL). I also like reading these books to him as they are SO much fun to read, and this one is great like all the previous ones. What's not to love about elementary grade kids solving clues and hunting down the local monsters? You know it's good when an energetic action-oriented kid will sit and read through the whole book in one sitting. Enough said!

My son is a HUGE fan of Troy Cummings and the Notebook of Doom series. They are hard to find as I have only seen them sold at his school book fairs once a year. They are also \$5 a piece so I enjoyed the little bit of a discount that I got. These are great mystery style chapter books for beginners. They really engage the reader which is important for a young child. They aren't too big as to discourage them from wanting to read yet they aren't too childish either. I highly recommend the Notebook of Doom series for any child that likes to read fiction books about monsters and monster fighters.

My son loves this series and has been collecting each book. We have the entire series and will order the next one that's coming out end of June. He started reading this series when he was about 8, maybe 9 and is now 11 and still wants any new books that come out. (He is also very into the Diary of a Wimpy Kid now too) He is a very reluctant reader and the Notebook of Doom series was the 1st series of books he willingly read and even asked for! And he wanted to own them too and not just borrow from the library, lol. Anytime I can find books that my son actually WANTS to read I'm thrilled!! And they are AR books that he can quizzes on in school!

I ordered these books for my son for Christmas. They arrived well packaged and undamaged. Fast shipping which was nice. He loves these books! I have not read them but our son read one to my husband and he said they were really fun books. Our son is 9 and hates to read! He is an excellent

reader but would rather play video games all day if we would let him. For him to ask for the whole set and to see him re-reading the ones from school tells me they must be pretty awesome books.

Love the whole series - my kids go crazy for these even though they have surpassed the reading level. I love that they are extremely reasonably priced too!

This book is fun. My kids all love these books. They get so excited for new ones to come out. We all read them together then my readers reread them over and over. We make predictions about what we think will happen and we were so wrong about this book. There is a twist we didn't see coming although looking back there were some clues. Good book. My kids ages two through eight listen to them. Boys and girls.

fun series for kids starting into chapter books. the characters and story lines are excellent for age 5 and up.

Very popular in our house. Fun & creative characters.
