Complete Preludes And Etudes-Tableaux (Dover Music For Piano)

Synopsis

The 24 preludes and 17 etudes-tableaux of Serge Rachmaninoff include what are possibly his finest compositions for solo piano. Each of these masterly works is included in this complete collection, reproduced from recent, authoritative Russian editions. They include: Prelude, Op. 3, No. 2; Ten Preludes, Op. 23; Thirteen Preludes, Op. 32; Eight Etudes-tableaux, Op. 33; Nine Etudes-tableaux, Op. 39. Among these are the enormously popular C-sharp minor prelude, Op. 3, No. 2; the G-minor prelude, Op. 23, No. 5; and the B-minor prelude, Op. 32, No. 10 — classics that have made Rachmaninoff one of the most performed and recorded modern composers. Each of these works reflects Rachmaninoff's emotional intensity, his thrilling gifts as a melodist and his ability to crystallize perfectly a particular mood or sentiment. In their sonorous textures and rich embellishment, they reflect as well his sovereign command of keyboard technique and his spectacular gifts as a pianist (he was one of the very greatest pianists of the 20th century). This beautifully produced yet inexpensive edition will provide both amateur and professional pianists a lifetime of study and enjoyment, and will afford music lovers as well the deep pleasures of following, music in hand, live and recorded performances of these keyboard masterpieces.

I like this edition of the Rachmaninoff Preludes and Etudes-Tableaux because it is truly complete. It is easy to get scores of all of the Preludes (both Op. 23 and Op 32) but finding a collection of ALL of the Etudes-Tableaux is not easy. Many editions are labeled as "complete" but they don't include many of the Etudes-Tableaux. I don't know why they are called "complete". This edition includes all of the Etudes-Tableaux plus all the Preludes. Thus it's title is correct. Dover has done a good job once again.

It is what it is and arrived on time at the right price.

This volume is a comprehensive Rachmaninoff collection containing all his preludes and etudes, including the famous C# minor prelude from his early years as well as his well-known G minor, C minor and B flat preludes; all great music. Etudes-Tableaux are picturesque and colorful, having elements of the Russian melodic style, such as the D minor Op. 33. For any aspiring pianists, this is essential repertoire and the edition & price are fantastic. Nice picture on the cover (Russian domes in the background).

Terrible print (for modern standards) and the papers sometimes flip over while you're trying to read&play. However, it's 13\$. Can't argue with the price.

As a piano student, Rachmaninoff's music adds to the diversity of what I can play. Although not easy, I love his music.

Very happy with this edition. Rachmaninoff is wonderful, but it makes a huge difference to get a high/accurate edition from which to play.

Needed this for 3rd college Piano class. All the preludes are here so I don't have to go looking for sheet music.

My daughter is putting this book of music to good use. Her work makes her Dad a very happy guy.
