Customer Reviews

This book is very awesome :)I really love this book I want to read more about it!! It's very good to learn about Sammy

It was awesome but put the whole thing in the free version so everyone can find out what happens ok.

It is sooo totally NOT worth the money! I thought it'd be super romantic and cute but it was like

bulls***. I read it in like 20 minutes and it was basically about a girl helping this boy in math and he aced the test. That's literally IT!!! I want my money back! When I was finished I was so surprised that this even got published and costs this price. OMG. I've had way cheaper romance books that are like 6 hours long and it is totally romantic and cute and is just so realistic too. Go check out Melanie Marks, Amy Sparling, or Anna Katmore. They describe it so well and is just...perfecto. This doesn't even deserve a star. It's, like, negative 100, I swear. DON'T buy it!!! Other reviewers are saying it's good because there's only a few people that reviews. Go look at the Harry Potter series. There's, like, about 5, 000 reviews and it's still a 5 star. Plz trust me. I'm not lying! I'm trying to save your money from this crap!

It was such a short book...I was on page 1 and it already said I was 11 percent through! This book should have been free it was that short...or they should've paid me to read it! Other than that it was an awesome book.
