The Art Of Halo 5: Guardians

Synopsis

In Halo 5: Guardians, game developer 343 Industries continues to enthrall fans worldwide with the exploits of the legendary Spartan super soldier, the Master Chief, as well as new characters in the Halo® universe, including Agent Jameson Locke and others. This deluxe art book chronicles the creative and breathtaking art of the worlds, vehicles, and characters of Halo 5: Guardians, with exclusive details behind the creation of returning characters such as the Arbiter and the Master Chief himself. Complete with commentary from 343 Industries, The Art of Halo 5: Guardians is the ultimate exploration of the intricate creature design and groundbreaking gameplay that define the Halo experience. © 2015 Microsoft

Customer Reviews

Insight Editions is a publisher focused on creating superlative illustrated books on photography, music, and popular culture. Lavishly produced and visually stimulating, every volume from Insight is dedicated to the skillful interplay of word and image. The books produced are unique works that combine the highest quality print production values with the time-honored traditions of publishing and rich subject matter. Elegant and informative, books from Insight showcase the best of art and photography in exquisite presentations of the bookmaker's craft. They are based in San Rafael, CA.

The Art of Halo 5 is an awesome sci-fi game artbook. It's as good as, if not slightly better than,

Awakening: The Art of Halo 4 which is the artbook for the previous game. Nicolas Bouvier, aka Sparth, is the art director for Halo 5. No wonder the art direction and style looks so familiar. If you've seen Sparth's artbooks, you'll recognise the strong use of black as composition elements to frame scenes, and the subtle but colourful gradations in environment art. Highlight of the book to me are the amazing environment art, mostly by Sparth, Shae Shatz, John Liberto and Darren Bacon. The designed locations look breathtaking. The vastness, space, sci-fi-ness (if there's such a word) are well captured. To top it up, many of those pieces are printed across the spread which gives it an immersive feeling. I can imagine these as huge paintings that can be framed and mounted onto walls. They look real good. Rest of the book comprise of designs for the characters and weapons. Character designs are more of an evolution because we have already see Master Chief countless time. It's just an update. There are the enemies, which aren't a lot, relatively speaking in terms of coverage in this book. Another thing to look out for would be the designers' commentary which are insightful and explains the rationale behind each design. As I'm writing this review, the game is not out yet, so I've to warn you that there are lots of spoilers within as the book covers a lot of ground. It's a fantastic video game artbook. It's hardcover with 208 pages. Highly recommended to Halo fans and those who love sci-fi art and environments.

Great book. Packed with loads of behind the scenes art and concepts. As an artist this book and the artists featured in it are just inspirational. If you're a Halo or just a sci-fi art fan you owe it to yourself to have this book in your collection. My only wish would be if more of these books were available in digital format. It would be nice to be able to load up a device with some art books for trips or just to skim through while doing cardio at the gym without lugging large format books around.

Simply amazing artbook, I especially like John Liberto works, he's a very talented artist, the team did an incredible job creating such stunning artwork.

I was very disappointed with size of the book and amount of content. I purchased the Halo 4 book and it was the size of a coffee table book and the content was excellent.

It was a Christmas gift for someone, but based on their reaction, they loved it. He kept commenting on how good the pictures were in the book. He was very pleased with the gift.

Great book..amazing size and it came with a req pack (though it was a basic pack with almost

useless stuff xD..so stingy)..but the book was great and the size was bigger than most of the other artbooks that I have. Recommended if you are a Halo fan

Impressive pictures in this book. A huge hit with my preteen boy. It would make a great coffee table book for adult HALO fans too.

4 stars cuz it does not give all the art but is still good
