pages) > Sports & Outdoors

## Customer Reviews

Conclusion says to find books to learn how to make the projects. Glad I did not pay for this junk.

I was excited by the variety if projects this book appeared to cover. They turned out to vague

suggestions with no instructions whatsoever on actually making them. For example, the instructions for making the monkey fist went something like this: "wrap a rock or steel ball in paracord." The only project that this book actually covers is the most basic knot used for things like bracelets. What a disappointing waste of money.

There are no actual how good in this book. ã Ä ÂÂ . Plenty of safety tips and history however. Would not recommend this book.
