I purchased this book for a class. I've used it sparingly but I have found it useful. Breaks it down very basic, to understand which is nice. Service was prompt and quick. Came in great shape within less than a week.

The book was in perfect condition when I got it. I already knew the quality of its content, which is excellent, and I received it quickly. Price was reasonable. I'm very happy with it.

Great book, great service. Thanks!
