The perfect gift book for the power hungry (and who doesn't want power?) at an excellent price. This is the concise edition of an international bestseller. At work, in relationships, on the street or on the 6 o'clock news: the 48 Laws apply everywhere. For anyone with an interest in conquest, self-defense, wealth, power or

This is the condensed version but has all the information the "real book" has. This is the perfect pocket size or quick reference guide. High quality and perfect to take on the go.

You will miss out on the very colorful examples from history by reading this tiny pocket book edition versus the full paperback version. Great book, but I wanted the full version and did not discern that "Concise" meant pocket book edition. Highly recommend the FULL Version and the audio book!

This book has some strange info but there are a few good points in it as well. I guess you have to

just choose what's applicable to your morals. I didn't agree with all of the info but it was interesting.

Everyone should read and revisit this tiny book on regular basis. Filled with wisdom. I recommend reading one lesson and living with it for a bit before getting to the next one.

This book is amazing, the laws are very easy to apply and makes lots of sense. The real life applications are incredible and apply to all walks of life. The stories they help to explain the laws and are also a must read and are very important to understand what is being said. My book had some issues since part of it the stories for the laws were missing, those were very important to me and I decided to buy Kindle version and got the laws and not the stories to reinforce them. So I will but another so do please read the stories as well as they enhance the application of the laws.

Arrived timely and is as described. Very easy to carry around to have something to read.

Pocket sized book and really interesting read

The book is awesome. If you want to understand the demeanor of the corporate mind, this would be the book. It goes hand and hand with the art of war. Delivery could have been better but circumstances can be inevitable sometimes. Overall, a book to understand the nature of this world starting with corporate.
