Here is a preview of what you'll discover... in the Basic Urban Self Defense Guide. Thanks to popular culture such as movies, television, and books and even the MMA (mixed martial arts) there has been a renewed interest in the martial arts and self-defense. Everyone has visions of being a grandmaster and fighting off half a dozen attackers using just their thumb and while this does indeed look exceedingly cool on the silver screen in real life. Surviving Doomsday: Learn The Secrets Of Urban Survival Course Regular price of \$298 ---? Coupon for only \$99.00 <https://www.udemy.com/surviving-doomsday-learn-the-secrets-of-urban-survival/?couponCode=Amzon> Only \$99 Dollars for a Limited Time. However this is just simply not going to happen, because in real life, the 12 attackers are not going to attack systematically or one at a time with a prescribed set of moves for which you know, every counter every defense and every attack. There will more than likely attacks simultaneously using whatever means necessary, until they get you on the ground or any another compromise position, which of course means that the fight did not end well for you. Customer Reviews

I got this book for FREE. If you paid a penny more than that, this "author" ripped you off. This Isn't a book, it's a pamphlet full of notes downloaded from the internet. If you learn anything from this book, I'd be shocked. Even beginners won't find much of value here. This "author" is a fraud, trying to scam money from unsuspecting people looking to honestly learn something. Please don't waste your money.

Like so many other books on the topic, this book is a decent way to learn maneuvers and tricks to use as a way to defend yourself should you find yourself in a bad situation and without any other form of self defense. However, like so many other self help books or products, you cannot become proficient in the methods you'll read without actually practicing what you've read and that means finding a willing partner or, better yet, a Martial Arts school to actually do some hands on practice and receive practical advice from a PROFESSIONAL. You cannot learn the moves discussed via osmosis just like you cannot become properly trained in first aid or CPR by reading about it. Do yourself a favor IF you buy this book (or download it for free like I did) and join a school. As most everyone has heard, a little knowledge can be dangerous. So don't become a statistic and embolden yourself by merely reading a book.

A great book! Straight to the point I really enjoyed it!

good book

I'm new to the whole preparedness movement and as such I'm always seeking new ideas. This book contained a lot of information. Some of it is more useful than others but that will vary from person to person. I recommend getting this and reviewing the information contained therein.

I liked it, it was a good read
