# Mandolin Scale Finder: Easy-to-Use Guide To Over 1,300 Mandolin Scales, 6 Inch. X 9 Inch. Edition

## Synopsis

(Fretted). Presents scale diagrams for the most often-used scales and modes in an orderly and easily accessible fashion. Use this book as a reference guide or as the foundation for creating an in-depth practice routine. Includes multiple patterns for each scale, a lesson on scale construction, and a fingerboard chart of the mandolin neck.

## Book Information

Paperback: 112 pages

Publisher: Hal Leonard (November 1, 2003)

## Customer Reviews

Pretty comprehensive presentation of all available scales: IDPLMAL, harmonic minor, melodic minor, whole tone, diminished scales! The only thing that could make it better is instruction on fingering. You are left to your own devices on that. It's 6X9" format could stand to go 8X11" but it's completely legible as is. Kudos Hal Leonard

This book is invaluable for learning mandolin players. Can also be used, as I do, for learning scale shapes for tenor guitar and as a layman fiddler with poor music notation reading skills.

This book is small, therefore very easy to carry, but it is like it was shrunk down. Both the images and type are extremely difficult to make out, even if your eyes are close to 20/20. The information is nice to have on hand.

I have already used this book to play Blues scales. It provides more than enough information on

many scale patterns in all keys.

Nice compendium of mandolin scales in different positions up and down the neck. Great reference for people looking to expand their mandolin improvising skills or to find new possibilities for writing songs featuring the mandolin.

Perfect. This gives you over 1,300 of the arpeggios and the correct fingering..Gives four variations of each arpeggio with and without extensions. It gives the formulas for the different arpeggios. Has fret markers on specific ones It also defines what arpeggios are. Tell you what triads and intervals are. This is a great little book to have, a real asset. KUDOS Hal Leonard.

My son is a mandolin player and he uses this book like a bible. He made me buy the same book for the Banjo too. He uses it to practice his scales and improve his improv.

Very indepth with all the scales. Very complicated not so much for a beginner.
