inspirational!

Really cool book, I love the concept of taking 25 Chefs (photographers) and have them give you

their take on the same subject matter and their approach..For example 19 Dive into the Celebration. Looking for even more emotion. #22 Inspired by Fashion, #27 Video Light, (going to go get one this week. One of my favorite and often overlooked is Album Design, thank you Bob and Dawn Davis simple is still elegant.Thanks Michelle for pulling all of this together.. This book goes in my camera bag.

This was a great book. Tips from 25 different photographers all in one place. Because there are so many contributors to this book there has to be some tidbit of advice for everyone, well anyone who is interested in photographing weddings that is. There are of course many an enviable image in this book but I love that they were all achieved in a different way because of each unique style of the featured photographers.

Great book poses and direction. Interesting helpful instructions also
