The Immortal Descendants: Books 1-3

Synopsis

****Marking Time is the winner of the 2016 Library Journal Indie E-Book Award**** A limited edition boxed set of the first three books in the time travel fantasy series with over 1200 five-star reviews. Includes the exclusive short story "The Gift." This five-book series is complete. "A rich, satisfying mix of romance, horror, and time travel." - Kirkus Reviews (Marking Time) Saira is a young woman who has no idea she's special. No one has explained to her that she is descended from a unique family, and if she were to trace one of the strange spirals she finds, she could end up lost in time. So when her mother disappears, Saira survives as she always has "until one night she finds herself transported back to Whitechapel, London in 1888, on the night of Jack the Ripper's double murders. And that's just the beginning..." An enthralling mystery, wrapped in a thriller, tied with a romantic bow." LitBuzz Reviews "April White is a consummate story teller who weaves historical events into a fast paced story through time. A great plot, intriguing characters that you'll instantly care about, and beautiful writing that is some of the best I've ever read." G. Elliot, Author

Customer Reviews

It's an acceptable series. It's not amazing but it's not bad, it really could use better character development and I just don't feel the relationship between most of the characters. I don't feel the emotion from them the way that I think you should. I feel that the author tried to cram too much story into too few pages without enough detail or getting to know the characters who don't have enough thought or personality. There are some points that could use some serious improvement and I have seen the other reviews that complained about them, people do not go around leaving keys in doors constantly the way they do in these books and including people in your gaze is a really strange phrase used too often. Overall though not bad. I'd continue reading them. The relationship between the main character and her boyfriend is very boring and he is like an extra in the series, I hope that improves.

I really enjoyed reading this series. New way of looking at time travel and the super natural.

Good read

I loved this books, the stories draw you in and you just can't help but like the characters. A very good read.

Wonderful series. Love these books!

The story flowed beautifully. I was able to picture each seemed as if I was watching a movie well done Bravo

This story drew me in with the first book and I had been looking forward to continuing the story since then. I highly recommend these!

April White is a gifted author. Great reading for young adults & adults alike.
